

## NPHF is pleased to announce the launch of the revised Medscape CE/CME activity

### Pain Management and Opioids: Balancing Risks and Benefits

- Updated 2019-20

#### New and updated material:

- Increased coverage of pain, types of pain and neuromechanisms of pain
- Non-pharma and non-opioid options for treatment of pain
- Guidance on assessing patients for opioid therapy
- Helpful new material on screeners, including the new ORT-OD tool
- New chapter on Understanding Opioid Use Disorder

[Click to Access the New REMS-Compliant Activity](#)

*From 1999 to 2018, over 250,000 people died in the U.S. from overdoses related to opioids. Opioid-related overdose deaths were five times higher in 2017 than in 1999 (CDC data).*

Medscape

If you attended a CO\*RE CE/CME between January-May 2019 we are required to notify you: The activity you attended covered the January 2018 FDA Blueprint but was not fully compliant with the FDA's Opioid REMS dated September 2018. You are encouraged to complete this new, fully-compliant activity on Medscape.

**NPHF is a member of the CO\*RE Collaborative.**
